Products in this plan: Green Phosphate · Vital Urea · Fusion Potash · Vital Potash · V-Compost

Rates are per acre. Each rate names the size of its bag or pack, in kg or litres: “½ of a 25 kg bag” is 12.5 kg. Products named in grey are commodity inputs that VAN does not make.

About this plan. This crop plan is a general guide for a typical crop on a typical soil, and it does not replace a soil test. VAN can prepare a plan for your own farm from your soil analysis, your yield target and the other conditions of your field that affect how much fertiliser to apply. Ask for one on WhatsApp at +92 300 5003041 or at kisan@van.com.pk.

Lab report for each batch. VAN tests every batch before it ships. At www.van.com.pk/verify.html, you can type the batch number printed on any VAN bag and open the lab report for that batch.

This table is copied from the date palm plan at www.van.com.pk/crops/date-palm.html as it stood on 10 Nov 2026.
